

A-LOK FITTINGS

Are designed as leak-free connections for process, power and instrumentation applications.

These two ferrule fittings are manufactured to the highest quality standards and are variable in a broad range of sizes, materials and configurations

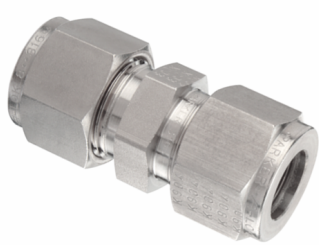

INTEGRITY

Includes materials & HCT Identification

UK MANUFACTURED

Quicker response time
Locally manufactured / stocked

SUPARCASE

Parker Suparcase surface treatment is an unique process that allows stainless steels and other alloys to be hardened without affecting, and even increasing, the corrosion resistance of the given materials

Advantages include:

- ✓ Hardened back ferrule is 250% harder compared to untreated counterparts - Resulting in superior tube grip
- ✓ Exceptional corrosion resistance
- ✓ Increased resistance to fatigue
- ✓ Outstanding wear and erosion resistance
- ✓ Suparcase layer does not crack or delaminate during forming
- ✓ No change in shape, size or colour
